

The Four Horsemen

Martone

And when the lamb opened the
first seal,
I saw the first Horse.

The Horseman held a bow
Now when the lamb opened the
second seal,

I saw the second Horse

The Horseman held his sword
The leading horse is white

the second horse is red
the third one is a black,

the last one is a green
The leading horse is white
the second horse is red
the third one is a black,
the last one is a green

And when the lamb opened the
third seal,

I saw the third Horse.

The Horseman had a balance

Now when the lamb opened the fourth seal,
I saw the fourth Horse.

The Horseman was the Pest
The leading horse is white

the second horse is red
the third one is a black,

the last one is a green
The leading horse is white
the second horse is red
the third one is a black,

the last one is a green
The leading horse is white
the second horse is red
the third one is a black,
the last one is a green
