

Stay

Alison Krauss

Where have you been
My long lost friend?
It's good to see you again
Come and sit for a while
I've missed your smile
Today the past is goodbye Time can't erase
A lover's embrace
Can't you hear it calling?
A new day dawning
You were longing to find Love's taken you far
Away from my arms
And I've been here all alone
Have your eyes failed to find
What took you from mine
A vision that's faded through time? But you sailed away
A fine summer's day
'Cause you heard it calling
A new day dawning
You were longing to find There is a way to make you stay
Darlin', don't turn away
Don't doubt your heart
And keep us apart
I'm right where you are
Stay There is a way to make you stay
Darlin', don't turn away
Don't doubt your heart
And keep us apart
I'm right where you are
Stay
