Grapefruit Moon

Nanci Griffith

Grapefruit moon, one star shining
Shining down on me
I heard that tune and now I'm pining
Honey, can't you see?Every time I hear that melody
Something breaks inside
And the grapefruit moon, one star shining
Can't turn back the tideNever had a destination
Could not get across
And you became my inspiration
Oh, but what a costEvery time I hear that melody
Something breaks inside
And the grapefruit moon, one star shining
It's more than I can hideNow I'm smoking
Cigarettes and strive for purity
And I'll slip
Just like the stars into obscurityEvery time I hear that melody
It puts me up a tree
And the grapefruit moon, one star shining
Is all that I can see
