

# Until the Led

[Vic Chesnutt](#)

Knowing what I know now  
I should've had a cow  
I didn't realize  
You were to be despised I must have been  
One of history's stupidest men  
Everything was perfect in my head  
Until the led started hitting me With benefit of hindsight  
I can see your ass wasn't right  
Maybe I'm mighty dull  
But you're pathological I never guessed  
You meant no, when you said yes  
Everything was perfect in my head  
Until the led started hitting me It didn't take long at all  
Until the Zen started to fall  
All of the people you faked  
Suddenly saw their mistake You never thought  
That I could survive the shock  
Everything was perfect in my head  
Until the led started hitting me
