The Rising Sun

Hanggai

The Rising Sun

The rising sun over the morning mists

In the fog the two of us

Those unforgettable times three years ago

The intoxication, asleep the two of us

Â

Growing there in the morning mists

The mountains behind it may come out

I'm missing the times three years ago

Asleep and dreaming of the two of us

Â

The rising sun over the morning mists

In the fog the two of us

Those unforgettable times three years ago

The intoxication, asleep the two of us

Â

Growing there in the morning mists

The mountains behind it may come out

I'm missing the times three years ago

Asleep and dreaming of the two of us

Â

The rising sun over the morning mists

In the fog the two of us

Those unforgettable times three years ago

The intoxication, asleep the two of us

Â

Growing there in the morning mists

The mountains behind it may come out

I'm missing the times three years ago

Asleep and dreaming of the two of us

Â

I'm missing the times three years ago

Asleep and dreaming of the two of us
