Monsters and Zombies

Ben Great

(I got serious problems, yanno? Crazy shit, ya feel me?)
Work like a slave to go and cop that new chain
Fresh pair of jays that got those hoes goin' cray
End of the day somebody probably gettin' pissed
Cause at the end of the night somebody fucked somebody's bitch
She a gold diggin' hoe,
I know, I know, I know, I know
But her ass and the titties be like
hello, hello, hello
My mama seeking
She makin angels in the snow
I said please stay forever
Cause I don't want to see you go

Light up a stove I think this liquor settin' in
28 grams I'm tryna roll it till the end
Hanging' them threads I'm always pushin' till the limits
Fuck what they say I'm bout' to do this shit again
(All over)
When I turn up I'm like a monster you can't stop it
Life of the party I got them singing la-de-dady
All for the ale just popped a xany I'm a zombie
Woke up this mornin and said I really got a problem
All of these dingerz they got their reasons why they haunt me
They probably seen me when I was doing dirty laundry
I keep believing I know my guy my nigga got me
Can't be that perfect
Cause ain't no fairy tales about me

Light up a stove I think this liquor settin' in
28 grams I'm tryna roll it till the end
Hanging' them threads I'm always pushin' till the limits
Fuck what they say I'm bout' to do this shit again
(All over)
When I turn up I'm like a monster you can't stop it
Life of the party I got them singing la-de-dady
All for the ale just popped a xany I'm a zombie
Woke up this mornin and said I really got a problem

(Damn, ah man, here I go again man, I don't know why I keep doing shit, I guess I'm addicted, uh)
