

# Sixteen

## The Heavy

I saw her dancin with the devil  
And he was wearing my shoe  
Black and white Jordan leathers  
And she was looking for abuse  
Now she looked just like heaven  
But her mind reeked of hell  
Now I know I shouldn't be telling  
But I guess I guess if you know her well  
She's the kind of girl

She can believe me when I say, she canShe's already ready there, and already thereNow what the devil want

Believe the devil gonna get  
He gonna stretch her out  
Like a tape in a cassette  
And when you see these kinda girls  
They all look big as Fud  
But the devil know the devil know  
There is only one thing tonight she gonna suck  
'Cause she won't no she can't  
Believe me when I say  
She can't  
She is already there

She is already thereWe got sixteen year olds acting like they fourty year olds  
Yo we need to do it and we need to re-clense the souls

I have an idea, let's take rich style high tronic system and we crush 'em out'Cause she won't she can't  
Believe me when I say  
She is already there  
She is already there
