Silver Mountain

Secret & Whisper

The baron took my life away from me
And I am just a normal man
The silver cheek of her memory
Is all I haveI will search for you all nightCome to save us, time traveler
Following the stars through the atmosphereWhen all of Silver Mountain shines
We know the rescuer's arrived
When all of Silver Mountain shinesThey've got me working in a factory
And I am falling underneath
Still the silver cheek of her memory
Is all I haveCome to save us, time traveler
Following the stars through the atmosphereDry your eyes
Keep them set on Silver Mountain
We will bury your mother
Beneath the fountainDry your eyes
Keep them set on Silver Mountain
We will bury your mother
Beneath the fountainDry your eyes
Keep them set on Silver Mountain
We will bury your mother
Beneath the fountainDry your eyes
Keep them set on Silver Mountain
We will bury your mother
Beneath the fountainDry your eyes
Keep them set on Silver Mountain
