Keep It Together

Ryan Bingham

Remembering when I was told that's a turn on back
Know that what I had was gone, scattered along the track
On hologram
But I never made a sound, but I was wide awakeSometimes I can't keep it together
But I'm never give up, I'm not
And make it rough out in the weather
I'm never give up, I'm notFor I've been a heavy load, with a full embrace
Forever holding on to the scars on my face
Sometimes a falling crowd can leave you on your own
Who says you're not allowed to stand on your own, yeahSometimes I can't keep it together,
But I never give up, I'm not
And make it rough out in the weather,
But I'm never giving up, I'm notRemembering when I was told that's a turn on back
Know that what I had was gone, scattered along the track
There is no turning back now
And nothing left to break
I made it this so far somehow, to say that it's too late, hey!Sometimes I can't keep it together
But I never give up, I'm not
And make it rough out in the weather
But I'm never giving up, I'm not
