Incredible Animal

The Prostitutes

I like you
But you think I'm an animal
And I think it's incredible
That I love you too
You take my hand
But never when respectable
You think I'm an animal
I love you too

Hold on tight
We're going to the radio
You think I'm super now
I want you too

I like you
But you think I'm an animal
And you find it incredible
That you love me too

Hey lo Hey la la
Well you love me from the side of the tracks
And you know I have a better life round here
And I'm never ever going back
Well you take me to your parents
You sit on my lap
You say it's just a breaking my heart
Well I'm down down down yes you know its true
And already we're falling apart

You wonder why
I don't want to break your heart
And something else
I love you too

I like you
But you think I'm an animal
and you find it incredible
That I love you too

You take me home

To your parenthood
They don't like me
