

I Could Die Happy

Die Happy

I see you taking pictures of you and me
I see you following my traces
Discovering new places
And I know that I would do anything
To always keep you satisfied
Just like you do
I'll try to make you understand
There's nothing in the world love can't change I could die happy right now
Finally I'm breathing out
I've been living like a shadow somehow
Since I have you here with me
I'll give you everything you'll ever need
No doubt
I could die happy right now I see your eyes they wonder round my face
You keep me out of trouble
My confidence has doubled
How could I've been without you all these years?
Now I don't wanna miss a thing
Loving you is everything
And I try to make you understand
There's nothing in the world we can't change If I could just capture time
Never wanna say goodbye
If I could always make you feel alright
