Break Out

Don Pullen

Hello, is there anybody out there
Anybody out there to hear me call
Now I, I gotta take my chances
I gotta take chances
To get outta this place
Explode into spaceI feel it coming
Feel it in my soul, I'm bursting up
Inside with my freight train heart
I'm rolling down the track[Refrain:]
Breakout, keep the fire burning
Breakout, keep the wheel turning
Breakout, I gotta have my freedom
Breakout, I've been waiting
Breakout, anticipating
Breakout, I gotta have my freedomTonight chains are gonna break down
There'll be a shakedown
Breaking through the barriers
When I, when I'm where I wanna be
No more under lock and key
There's no going back
No turning backI feel it coming
Feel it in my soul, I'm bursting up
Inside with my freight train heart
I'm rolling down the track[Refrain]I feel the hunger rising
I feel it in my bones and in my heart
And nothing stops me now[Refrain]
