

# Yes I Am

## Keybone

Y'all know we had to do this  
I am who I say I am, Keybone  
You already know I am, way badder than you are saying I am  
I'm a Red Eye Pea, I ain't Will-I-am  
I have been all over the world but Green White Green still I am  
What is hard for you to see in who exactly I am?  
I'm the man the other man will see and call the man  
If I ain't the man, I will never have myself a fan  
Who will never tell another nigger this nigger is hot  
They will never talk about me, the least they will do is adore  
Cos I got the gut, so the baker just gave me my cut  
If I ain't the shit, tell me what the fuck will you report  
You have been talking about them wack ass niggers like they are not  
When they really is, watch how I will make a milli with ease,  
I will be gone,  
the only thing you are probably going to feel is breeze  
When I'm on the road, I will be doing shows like I were freeze  
I'm a rich boy, so expect that I will be throwing dees  
Hope you are satisfied, cos a brother has got to make his cheese  
Are you the key we are looking for? Yes I am  
Say a word, so we can know that, Yes I am  
Please we heard you are a bad guy, Yes I am  
Are you badder than we thought Sir? Yes I am I am, even more than all you had heard  
I will like to say a few, after that, I will move ahead  
I'm the reason why a couple rappers are far from the booth  
Cos they know they are extinguishers and will never kill the root  
Now I mean the source, not talking, so please don't ask from us  
I'm the head and I'm the tail, who has got a coin, let me toss  
So you will understand that nothing is tricky to a boss  
They don't call me The Key all for no reason and no cause  
Not because I'm skinny, not cos I'm opening the doors  
But because I am the brother that's killing them with the swag  
Usually I wouldn't mention, the question caught my attention  
And I guess it's something you know I can address  
So why dressing something when you know the answer is yes  
I'm a hero not like super that carries S on his chest  
I'm the voice you will listen to once you know fly in the west  
I'm the Key, I'm the Bone and I'm the motherfucking best  
Are you the key we are looking for? Yes I am

Say a word, so we can know that, Yes I am  
Please we heard you are a bad guy, Yes I am  
Are you badder than we thought Sir? Yes I am I'm the incredible, straight out of the green, but not the hulk  
While the other rappers feel like he's got something, they are fucked  
Tell a friend to tell a friend, that a beast has been unlocked  
I'm will break my enemies the way Djs are breaking records  
I will show them exactly why I'm referred to as a King  
Anybody has got balls, now is the time is step into the ring  
Your bars could weigh a couple pounds but punch lines are weak  
Some will think I'm from Thai from the way I swagger with this kick  
I'm slick, I'm sick and I'm the rapper you should lick  
I'm the rapper that's fucking and got a wrapper around his dick  
I'm the rapper that can and sell a milli in a week  
Some other rappers ain't wack, they have just been going to the back  
So I came like Santa Claus with all the swagger they had lack  
I will give them in colored, preferably maybe black and white  
And I will let them obey just like they are thirsty for a sprite  
As I take them out of darkness for I'm heading for the light Are you the key we are looking for? Yes I am  
Say a word, so we can know that, Yes I am  
Please we heard you are a bad guy, Yes I am  
Are you badder than we thought Sir? Yes I am Hey, excuse me Keybone!
