

# Caught in the Sun

## retrograde

You're my distanced destination of choice  
I'd give anything just to hear your voice  
I couldn't pass you on the street, without saying a word  
Most times I missed the voice, that goes unheard  
What if I missed you  
You got caught in the sun  
What if I did something  
Never to be enough  
People everywhere how could I be sure  
Is it you that I have been looking for?  
What would it take for me to be comfortable  
With you, with me you're the chosen one  
What if I missed you

You got caught in the sun  
What if I did something  
Never to be enough  
You are there for me this I hope and pray  
You will wait for me, I won't be too late  
What if I missed you  
You got caught in the sun  
What if I did something  
Never to be enough  
Will you wait for me?  
Or will I be too late this time?  
You are there for me this I hope and pray
