

Silent In the Morning

Phish

My glance is always darting when I stroll the avenue
Avoiding all the obstacles that terrorize my view
And if you are here with me, I trust you to lead the way
And when you're not, I follow you and always go astray

You're silent in the morning, suspended in the trees
When lunchtime comes you've found your voice that brings me to my knees
The volume just increases, the resounding echoes grow
Till once again I bask in morning stillness I love so

The target that I shoot for seems to move with every breath
I tighten all my arteries and make one last request
Divine creation hears me and he squashes me with fear
I think that this exact thing happened to me just last year

You're silent in the morning
You've found your voice that brings me to...
You're silent in the morning
You've found your voice that brings me to...
You're silent in the morning
You've found your voice that brings me to...
You're silent in the morning
You've found your voice that brings me to my knees
(Repeat)

I will not dismiss you, shelter you speak with you
Smile at you, trust in me, he'd like to brush you off and I'd agree
(Repeat 6x)
