

Every Little Part Of Me

Alesha Dixon

Can we really do this?
No, no, not, not, not, not me
I've never saw me falling hard
Got me like I knew it
No, no, not, not, not, not me
You took away my guard, guard So I put my hands up, put my, put my hands up
Put my hands up, put my, put my hands up
Put my hands up, put my, put my hands up
And now I see Your every little part of me
You got my heart
Your every little part of me
You got my heart
Your every little part of I wanna feel your kiss for real
Wanna feel your kiss for real
I wanna feel your kiss for real
Wanna feel your kiss for real Can we really do this?
No, no, not, not, not, not me
I never saw me falling hard
Got me like I knew it
No, no, not, not, not, not me
Girl, you took away my guard So I put my hands up, put my put my hands up
Put my hands up, put my, put my hands up
Put my hands up, put my, put my hands up
And now I see Your every little part of me
You got my heart
Your every little part of me
You got my heart
Your every little part of I wanna feel your kiss for real
Wanna feel your kiss for real
Said, I wanna feel your kiss for real
Wanna feel your kiss for real
For real, for real, for real, hey So I put my hands up, put my put my hands up
Put my hands up, put my, put my hands up
Put my hands up, put my, put my hands up
And now I see Your every little part of me, part of me, part of me
You got my heart
Your every little part of me
You got my heart
Your every little part of, part of me I wanna feel your kiss for real

Wanna feel your kiss for real
Said, I wanna feel your kiss for real
Wanna feel your kiss for real
