Undercover Funny

Atom and His Package

With a fellow
I run a record label
and its name is File-13
He's a tall dark
Arkansas-ian motherfucker
and i couldn't say for sure
if he actually likes me
I guess its possible
I nag too much
and I get inside his head
he does make me laugh in his own special way
(hee hee) he likes the Greatful Dead (thats not funny)
Your undercover funny
your only funny
when I'm not around
with a marg marg beep beep
fun fucking footall now
I laughed out loud
reading a 'zine
with your bands interview
hey neat, if your listening to this song
your probably thinking about me
thinking about you
I know for a fact
he has a good sense of humor
i overheard him on the phone in the hall
but when he talks to me
he talks seriously
if he talks to me at all
wake up time for matt werth
pay our loan
talk to kurt
