

# Deathrider

## Anthrax

Riding hard, high in the saddle  
Winged steed of unwearing flight  
Sweeping through air just like fire  
Swift of the foot, great of mightHear the screams, feel the bite  
We ride with death tonightConquering all, spreading terror  
Hoofs gallop in thunderous pound  
Devouring the souls of the wretched  
Trampling them down to the groundHear the screams, feel the bite  
We ride with death tonightHere it comes, you better hide  
Shoot the guns, you're gonna dieGripping the reins of destruction  
Made of steel on his hands  
Holder of forces immortal  
Slaughtering all in his pathHear the screams, feel the bite  
We ride with death tonight
