

# Strangers

## Psychic Twin

Waiting till you speak the.  
as you see this.each other's heart  
and even when you try in circles strangers  
and I don't wanna waste, the time apart.  
Even when you speak for.  
as you see me seat each other's heart  
it's easy when you try the circles strangers  
and I don't wanna waste our time apart.I know the way that I've been wake for hours  
and you don't even know.is all I have  
baby when you think these.  
I know that we can take it now again.  
I know the way that I've been wake for hours  
and you don't even know.is all I have  
baby when you think these.  
I know that we can take it now again.  
I know the way that I've been wake for hours  
and you don't even know.is all I have  
baby when you think these.  
I know that we can take it now again.  
I know the way that I've been wake for hoursand you don't even know.is all I have  
baby when you think these.  
I know that we can take it now again.So we might go, I go.  
when you go, you go.  
and I go, I go for.  
when you go, you go for.  
And I go, I go for.  
when you go, you go.  
and I go, I go for.  
when you go, you go for.  
Waiting till you speak the.  
as you see this.each other's heart  
and even when you try in circles strangers  
and I don't wanna waste, the time apart.  
Even when you speak for.  
as you see me seat each other's heart  
it's easy when you try the circles strangers  
and I don't wanna waste our time apart.We don't need to see, we don't .  
we don't need to see, we don't need to see.  
We don't need to see, we don't .

we don't need to see, we don't need to see.
