

Make Me Whole

[Amel Larrieux](#)

Darlin', I want you to listen
I stayed up all night, so I could get this thing right
And I don't think there's anythin' missin'
'Cause a person like you, made it easy to do
I've waited for so long, to sing to you this song
Your eyes are the windows to Heaven
Your smile could heal a million souls
Your love completes my existence
You're the other half that makes me whole
You're the only other half that makes me whole
I think the angels are your brothers
They told you about me, said, "You're just what she needs"
And I find myself thankin' your mother for givin' birth to a saint
My spirit flies when I say your name if there's one thing that's true
It's that I was born to love you
And your eyes are the windows to Heaven
Your smile could heal a million souls
Your love completes my existence
You're the other half that makes me whole
You're the only other half that makes me whole
You make my dreams come true over and, over again
And I honestly truly believe
You and me are written in the stars
I live my whole life through
To givin' thanks to you
'Cause your eyes are the windows to Heaven
Your smile could heal a million souls
Your love completes my existence
You're the other half that makes me whole
You're the only other half that makes me whole
