Only in America

Naked Raygun

You start your own company
Only in America
Mixing chemicals a new way
Only in America
It's good for the economy
Only in America
Makin' cancer everyday
Only in America
Then someone can make a buck
With the cure for your bad luck
When you're born you start to die
Don't know from what
And you don't know why
So you start your own religious cult
Only in America
Live on the San Andreas Fault
Only in America
Eat your own weight in salt
Only in America
Pick your boogers in your car
Only in America
Then someone can make a buck
With the cure for your bad luck
You buy a couch with food stamps
Be the woman with Midol cramps
It happens only in the U.S.A.
Only in America
Only in the U.S.A.
Only in America
Only in the U.S.A.
Only in America
Only in the U.S.A.
