Spiritual

Dwele

There ohhhh yea yea ohhhh
Sometimes we must go
We must look at our situations lady
And how could u make me chose
Between you and my first life
Theres so many others
Wishing that they can raise their families
All first at the same
And playing and traveling
But you keep me within chain
Holding, keeping me from leaving
I hope for the day
When you and I can agree
And we can live like we ardor be
Girl its all for u
And you call me
Fame x7
Ohh x 4
