

Come and Get Me

[Jackie DeShannon](#)

I know what life has done to you
Things haven't been too much fun for you
That's why you ran away
And now I'm all alone
I wasn't meant to be on my own
Turn back, turn back And come and get me, oh, come and get me
Take me along
I don't care where you lead me, if you lead me
It can't be wrong
Just to be with you there's no place in this world
That I wouldn't go This time isn't the time for you
You have to be where the skies are blue
And here the skies are gray
Darling, I understand
Don't you need someone to hold your hand?
Turn back, turn back And come and get me, oh, come and get me
Take me along
I don't care where you lead me, if you lead me
It can't be wrong
Just to be with you there's no place in this world
That I wouldn't go
