

All That I Wanted

[Ed Kowalczyk](#)

Holding hands across the ages
Breaking free of all we are
A mystic cry into the void of love
Sink with me into the kingdom
A banquet set for us to share
Invisible, it lasts forever
I'll be there waiting
Deaf and blind and turned to stoneChorus:
All that I wanted was you
The house was haunted by truth
You left me here, to face my fears
All that I wanted was youAll across the great beyond
They shout for freedom and for answers
Nearer than the blood, it sits unseenThe walls fell down and crushed the city
And in its space, a new one rose
Up from the ashes, down that road
We have to ride, this is the life
We dream, we dance, we dieChorusIt's time to lay it down
This heavy load
I step aside and cry
Come to me now
Come to me here
Come to me baby
It's just a dream, we fell asleep
Now rise with meChorusAll that I wanted was you
All that I wanted was you
All that I wanted was you
