Kill Everyone

Hollywood Undead

You got the motherfucking right to remain violent!
Hollow points hiding in my clip
Up in 25 just to watch your life end
I pray father please forgive me before I sin
Got the sticks of dynamite, I'm dying to light them
God, don't fail me now!
Get thrown and you won't get carried out!
To a hole, where I know you won't be found
Just face it, it's almost over now!
Don't even try to take this weapon from me.
I like you more and more the less you breathe.
I've come undone. I think I'll kill everyone!
My, what have I done? Fuck you, let's kill everyone!
I've come undone. I think I'll kill everyone!
My, what have I done? Fuck you, let's kill everyone!
Oh no, here comes the riot!
Does everything have to resort to violence?
If you think you can hide, go and try it.
Now let's let the fucking gun break the silence.
Close your eyelids,
Another shot and then here come the sirens.
I thought I told you to keep fucking quiet?
Somebody's dying, so come say goodbye, kids

Don't even try to take this weapon from me.
I like you more and more the less you breathe.
I've come undone. I think I'll kill everyone!
My, what have I done? Fuck you, let's kill everyone!
I've come undone. I think I'll kill everyone!
My, what have I done? Fuck you, let's kill everyone!
Imma take you all down
Saying, "Fuck the world" now
Imma take you all out
I'm saying "fuck the world" now
Imma take you all down
Saying "fuck the world" now
Imma take you all out
I'm saying "Fuck the world" now
Don't even try to take this weapon from me

Saying "Fuck the world" now
I like you more and more the less you breathe
I'm saying "Fuck the world" now
I've come undone. I think I'll kill everyone!
My, what have I done? Fuck you, let's kill everyone!
I've come undone. I think I'll kill everyone!
My, what have I done? Fuck you, let's kill everyone!
