Lay Your Hands on Me

Lisa Stansfield

It's a feeling
Slowly rising
Sending stars spinning around meSomething happens
When I'm with you
Moving gravity by degreesAnd I know some things are meant to be
And I know we are
When I hear you say, "I love you"Lay your hands on me
Tell me how you feel
Still takes my breath awayWe lie here honestly
Whisper once again
As you lay your hands on meThere's desire
When you touch me
Slowly rushing me to extremesAnd I know some things are meant to be
And I know we are
When I hear you say, "I love you"Lay your hands on me
Tell me how you feel
Still takes my breath awayWe lie here honestly
Whisper once again
As you lay your hands on meTogether we were meant to be
And together we are
There's a passion that's surrounding me
When I hear you say, "I love you"Lay your hands on me
Tell me how you feel
Still takes my breath awayWe lie here honestly
Whisper once again
As you lay your hands on meLay your hands on me
