

# Pink Tea

## Alien Ant Farm

Our bright days make Sundays  
And tea time is always  
In short time with sunlight  
Were gonna wait To drink a cup of lots of love  
Would hopefully erase all the doubt  
And you would be mine dear  
And I will drink and only Spring is here and were in full swing  
Spring is here and were in full swing Now clouds pour thick showers  
And wash way droughts powers  
So crops thrive twelve feet high  
Theyre potent and get me high So we stir and we stir  
And mix a drink of leaves so pure  
Three cubes of cane represent  
Our short but sweet relations Spring is here and were in full swing  
Spring is here and were in full swing
