

It's You

Dolores O'riordan

It's you, it's you, it's you, you know you make me feel better
And I knew, I knew, I knew when I was under the weather
Where did all the time go? Where did all the time go?
It's you, it's you, it's you, you know you make me feel better
I remember a time when we were small planting seeds, pulling weeds
I remember a time when we were small, we did it all
But tell me where did all the time go, where did all the time go?
It's you, it's you, it's you, you know you make me feel better
It's you, it's you, it's you, you know you make me feel better
And I knew, I knew, I knew when I was under the weather
Where did all the time go? Where did all the time go?
It's you, it's you, it's you, you know you make me feel better
I remember driving in the car, our destiny was never far
I must have asked ten thousand times, are we there?
But tell me where did all the time go, where did all the time go?
It's you, it's you, it's you, you know you make me feel better
I could not wait until I grew
I could not wait until I grew
I could not wait until I grew
I could not wait until I knew
I could not wait until I knew
I could not wait until I knew
I would like to go back to that car when our destiny was never far
I would like to go back to that car but I can't
It occurred to me today that maybe I wished those days away
Still it's you, it's you, it's you, you know you make me feel better
Whatever you do, don't wish your days away
Whatever you do, take it easy today, take it easy today
