

# City of Workers

Pietro Cesaro

Someone said is a beautiful city ,  
Amazing landscape and people work so hard,  
But you don't know how they are sad

It's a city of workers - workers - workers

Smiling faces in front of you, a lot of envy behind your shoulders  
And you read it in their eyes

It's a city of workers - workers - workers

You live very well in the city of workers  
You breathe a good air in the city of workers  
You've got your love in the city of workers  
And you go on hoping in the city of workers  
There's no better place of the city of workers
