

Fractured

Katatonia

Knew I would fall if I tried
So I held back for a while
You pushed me so hard, I had to go
I tried to be strong, then I failed I would like to say this
Just in case you didn't know Well your soul is fractured
I know what it's like as well
Yeah, I have sold my soul
Traded it for hollow gold Well your soul is fractured
I know what it's like as well
Yeah, I have sold my soul
Traded it for hollow gold You pushed me so hard, I had to go
I tried to be strong then I failed I would like to say this
Just in case you didn't know Well your soul is fractured
I know what it's like as well
Yeah, I have sold my soul
Traded it for hollow gold Well your soul is fractured
I know what it's like as well
Yeah, I have sold my soul
Traded it for hollow gold
