

# Don't You Evah (DJ Amaze And Alan Astor Mix)

## Spoon

Bet you got it all planned right  
Bet you never worry, never even feel a fright  
Bet you got it all planned right  
Never fit to worry, never even feel a frightSingle sleeps alone  
And I know you don't really mind  
Five years by your side  
So I know you really don't mindBut don't you love her, deep down, I said, don't ever  
Because it's gonna keep him hanging around  
Never, deep down, I said, don't ever  
Because it's gonna keep him hanging aroundDon't you never think it's right  
Bet you think you had to but it doesn't feel right  
Bet you never think it feels right  
Famous sounding words make your head feel lightPetals getting picked  
With the love yous and the love you nots  
Five years going by  
Everyone is standing on their sideBut don't you love her, deep down, I said, don't ever  
Because you're gonna keep him hanging around  
Never, deep down, I said, don't ever  
Because it's gonna keep him hanging aroundBut don't you love her, deep down, I said, don't ever  
Because it's gonna keep him hanging around(Five years going by)  
Deep down, I said, don't ever  
(Everyone is standing on their side)  
Because it's gonna keep him hanging around(Five years going by)  
Deep down, I said, don't ever  
(Everyone is standing on their side)  
Because it's gonna keep him hanging around(Five years going by)  
Deep down, I said, don't ever  
(Everyone is standing on their side)  
Because it's gonna keep him hanging around
