

# Glass

## Kasabian

We are going nowhere fast  
Are we made of glass?  
No one knows, no one knows Play out at the highest level  
Something never sung before  
Stalk by, human interaction  
Keep them in their corners We can start and turn off everything  
It's all the same, don't say I'll laugh again Save me  
Oh, come on and save me  
From this world  
Tell me  
'Cause I need to know  
I'm not alone We are taught to watch the puppets  
Not the hands controlling  
Do you think if we pull out the rug  
The world would stop revolving? We can start and turn off everything  
It's all the same, don't say I'll laugh again Save me  
Oh, come on and save me  
From this world  
Save me  
Oh, come on and save me  
From this world Tell me  
'Cause I need to know  
I'm not alone We are going nowhere fast  
Are we made of glass?  
No one knows, no one knows A wise man told me that we are born with wings  
But never taught to fly  
Doesn't that make you wonder why  
Is it to prevent us from falling out of the sky  
Or is it to stop us from soaring too high  
So let me ask you this  
Are you running around in a circle, going nowhere fast?  
'Cause when you look at the man in the mirror  
He's made of nothing but glass  
You're never aware that mountains don't move themselves  
Tectonic plates make them shift  
That all it took was a staff to part the Red Sea  
All it took was a bus to Montgomery  
A single woman who refused to give up her seat  
We fought an entire army with a bouquet of flowers back in the '70's

But now you're taught to remain without will until you run out of energy  
Afraid that if you strive for an ideal you end up like a Kennedy  
It's like being on a treadmill every day but never losing any weight  
'Cause to see success the food before you digest has to change  
We're stressed and high, get depressed and die  
But still afraid to question why  
One of the biggest criminals I ever met wore a suit and tie  
When did we stop believing? When did we stop marching?  
When did we stop chanting?
