

# Let's Get Wasted

## Warrior Soul

I'm moving faster into your cold heart  
This is a dream rock battered in rage  
The sensation over [Incomprehensible]  
Your body is covered in vain I'm a message, I'm a bastard  
I'm a bitch with a ticket to love  
You're a crashin' on the fashion  
I'm a lookin' up to super god You wanna die ya, so what?  
No one cares if you're a suicide  
You want everything [Incomprehensible]  
Still not enough for you tonight We're out trippin' the system  
Cause a riot on a doomsday ride  
Ray guns, radio blastin'  
It's a fast lane fire fight He's restricted  
You're an explosion  
Now you're addicted Take a ride out into the sunshine  
Breakin' laws, 'cause I feels so good  
I don't really need any martyr Is just a jerkin' off four Hollywood  
All you big stars, I'm happy of you  
Gee, I wish I could be that good We're not tired  
I'm a blowing like the heat in the sun  
Shooting skyward  
I don't leave until I have me some fun Through the fallout  
All you people wanna kick me around  
Eat your heart out  
I'm on target with the city sound It's an explosion  
Bleed like lights rays  
Dig the emission You're looking for a super fun  
A come on baby, ya you get enough  
I'm coming back in for some satisfaction  
And you're looking like the main attraction You're on fire a little baby  
With your head kicked in  
We desire another world devoted sin Let's get high, get wasted  
Let's get high, get wasted  
Let's get high, get wasted I want fun and I'll make it  
Let's get high, get wasted  
Ya, the pigs can't take it Let's get high, get wasted  
Let's get high, get wasted  
Let's get high, get wasted Let's get high, get wasted  
Let's get high, get wasted

Let's get high, get wastedWe're having fun now  
We're not supposed to  
Isn't it lovely?I'm a telling ya, it's chronic  
You're a tragic hipaholic  
I'm a giving all I can girl  
Now it's time for me to show yaYou wanna die ya, so what?  
No one cares if you're a suicide  
You want everything [Incomprehensible]  
Still not enough for you tonightYou're trippin' on the system  
Cause a riot on a doomsday ride  
Ray guns, radio blastin'  
You're a hit at the fire fightLet's get high, get wasted  
Let's get high, get wasted  
Let's get high, get wasted  
Let's get high, get wastedLet's get wasted, let's get wasted  
Let's get wasted, let's get wasted  
Let's get wasted, let's get wastedLet's get wasted, let's get wasted  
Let's get wasted, let's get wasted  
Let's get wasted
