# Sunshine Overtime

## Chris Young

If you're tired of the glass being half full
Burnin' at both ends and you're burnt out
Sometimes you got to go a little coastal
Take the truck and point it southWork in a little sunshine overtime
Checking on out of that nine to five
Sandy streets and the windows down
Hair free in the breeze getting all unwound
Jump in the water go weekend wild
Get wrapped up in an old beach towel
Break out tequila salt and the lime
Working sunshine overtimeMan there's just something about the ocean
Flip flops and tank tops, and tan lines
Makes you wanna grab the sun tan lotion
And let your worries roll out with the tideWork in a little sunshine overtime
Checking on out of that nine to five
Sandy streets and the windows down
Hair free in the breeze getting all unwound
Jump in the water go weekend wild
Get wrapped up in an old beach towel
Break out tequila salt and the lime
Working sunshine overtimeIt's the kind of fun
That's hard to stop
When it's started
So raise a cup and punch the clock on a party
Work in a little sunshine overtime, overtimeWork in a little sunshine overtime
Checking on out of that nine to five
Sandy streets and the windows down
Hair free in the breeze getting all unwound
Jump in the water go weekend wild
Get wrapped up in an old beach towel
Break out tequila salt and the lime
Working sunshine overtime, overtime
Work in a little sunshine overtime
