

Woe Is Me

Brown Floyd

Well here's a new song from your honey baby
gonna sweep you right up off your feet
been working so hard every day and night
got so many bills to beat
you know we've both been havin the times of our lives
days full of sugar so sweet
it's been too long since we thanked the Lord for
givin us our daily treat Woe is me Have a cup and a carton baby gonna treat you right
feel your toes in the devil's garden stayin up all night
and I can see you in these arms of mine I'm gonna set you free
I get the chills in your garden baby but -Woe is Me I wanna show you more of what it's all about
cause I'm no fool and you're no clown
well I can see you fine when you're around
all around now all around all around now baby just to see your smiling face again
