Time goes by

Every Little Thing

I've never had a feeling so right
Like I have with you
Can't explain the things you do
But boy when you tell me softly you love me tooIt's like I know we were meant to be
So for eternity you will have a part of me
And all I need is for you to stay
Right here with me, yeahTime goes by but we stand still
Love you for eternity, I will
I know that we were meant to be
That's how I feel when you're with meYou are the reason that my heart beats
And no I never thought, I would ever fall so deep
But now I see that the love that we share
Is, oh, so sweetWhat if I told you that I believe
That you are my soul, my destiny
What if I was to say in every way
Deep in my heart is where you'll beTime goes by but we stand still
Love you for eternity, I will
I know that we were meant to be
That's how I feel when you're with meTime goes by but we stand still
Love you for eternity, I will
I know that we were meant to be
That's how I feel when you're with meAs you hold me close so tenderly
And watch you fall to sleep
I see in you the one who now completes
The half of me I used to beYeah
Time goes by but we stand still
Love you for eternity, I will
I know that we were meant to be
That's how I feel when you're with meTime goes by but we stand still
Love you for eternity, I will
I know that we were meant to be
That's how I feel when you're with meTime goes by but we stand still
Love you forever, yes, I will
I know we're meant to be
That's how I feel, baby
