

Oddity (Demo)

Coal Chamber

This is the way it's got to be...Crawl beneath this filthy ground
And underneath this dirty ground
I crawl beneath this filthy ground
And underneath these dirty leavesSeems to me to be the insanity
It seems to me I've become the oddity
It seems to me I need some identity
Seems to me I've become the oddityKeep this high now keep this high
Said I better
Keep this high now keep this high
Said I betterKeep this high now keep this high
Said I better
Keep this high now keep this highThis is the way it's got to be...No fear, so depraved, break
