Do You Know Something (I Don't Know)

Webb Wilder

Advisory - the following lyrics contain explicit language:

I get a feeling I can't quite name
A ghost of a pain just before the rain
Got second sight flashin' but things aren't clear
A little voice asking things I don't want to hear
Been gettin' sympathetic smiles for a whileDo you know somethin' that I don't know?
Do you know somethin' that I don't know?
Look me in the eye, please, say it ain't so
'Cause I, I, I, I, I, I don't want to cry no moreNow you won't be the first to fade away
But don't be a stranger if you're gonna stay
Don't shut me out 'cause I know what gives
If love's not the password, I don't know what isGot me under a blue spell
Pray tellDo you know somethin' that I don't know?
Do you know somethin' that I don't know?
Look me in the eye, please say it ain't so
'Cause I, I, I, I, I, I don't want to cry no moreSo let's have it, babe, now if you will
Shoot straight but don't shoot to kill
Do you know somethin' that I don't know?
Ain't no tellin' what I don't knowYeah, somethin' tells me, somethin' going on
Whispers in the air and on the code a phone
I can't tell the future but I can take a hint
If your love is really gone, I wonder where it went?So let's have it, babe, now if you will
Shoot straight but don't shoot to killDo you know somethin' that I don't know?
Do you know somethin' that I don't know?
Look me in the eye, babe, say it ain't so
'Cause I don't want to cryGirl, you must know somethin'
I, I, I don't want to cry
I don't want to cry no more
