

Just Like the Others

Eyeshine

All this time I try to let it go
And all the while they push until I fold
It's growing old

This is our own rejection
This is our story, get it straight
For it's too late

I can't outrun the web you spun
I know that I have never overcome it all

Leave me well enough behind
'Cause I have got no time
To waste on you

How much more are you going to find
Every little flaw I break the line
Time and time

This is our own rejection
This is our story, get it straight
For it's too late

I can't outrun the web you spun
I know that I have never overcome it all

Leave me well enough behind
'Cause I have got no time
To waste on you

Leave me well enough behind
'Cause you're just like the others
You're just like the others

Will you ever listen?
You never listen

Leave me well enough behind
'Cause I have got no time

To waste on you

Leave me well enough behind
'Cause you're just like the others
You're just like the others

Break away I'm going on now
Break away I'm going on and now
You won't pull me down
