

Different Colors

Walk the Moon

Coming up slowly, oh
Sun over the hill
Daylight's still a long time coming
But I know it will
Been under this spell, oh
But we're coming awake
So we'll be rude, we'll be loud
As long as it takes And this is why, this is why
We crank the dial to the right
This is why we're biting the bullet
We know the kids are right Sing ooh, DIFFERENT COLORS
Ooh, we carry each other
Ooh, we're just DIFFERENT COLORS
This is why we're biting the bullet
We know the kids are right We keep cranking the music up
Driving through our towns
But they don't want to hear
They want us to turn it down
So come on lovers, come on haters
Tonight we raise the fire
Cause when the people get to dancing
They forget about taking sides And this is why, this is why
We crank the dial to the right
This is why we're biting the bullet
We know the kids are right Sing ooh, DIFFERENT COLORS
Ooh, we carry each other
Ooh, we're just DIFFERENT COLORS
This is why we're biting the bullet
We know the kids are right ("For every action, there is an equal and opposite reaction") We're coming awake
Out of your spell
As long as it takes
We're coming awake... We're coming awake
Out of your spell
As long as it takes
We're coming awake... And this is why, this is why
We crank the dial to the right
This is why we're biting the bullet
We know the kids are right And this is why, this is why
We turn it up all night

This is why we're biting the bullet
We know the kids are rightooh, DIFFERENT COLORS
Ooh, we carry each other
Ooh, we're just DIFFERENT COLORS
This is why we're biting the bullet
We know the kids are rightDifferent Colors,
We carry each other!(Oh yeah)Different colors!
Oh this is why we're biting the bullet,
We know the kids are right.
