

Move in Light

Modern English

Constantly moving, countryside lives
Idle chatter, ting lips
Lean your head back, light it up again
Another watch another stage
Another building and another grave
Exuberance leads to exhaustion
Exuberance leads to exhaustionThe secret's come out, the ? stay in
Against lucid skin
Another beer another grin
Talking turns to empty faces
Don't forget and light it up again
Exuberance leads to exhaustion
Exuberance leads to exhaustionMore ?
More laughs more frowns
Dawn to dark
Moving
Move in light, reach out and see
Feel the moon touch, what shall it be?
Move in light, reach out and see
Feel the moon touch, what shall it be?
Exuberance leads to exhaustion
Exuberance leads to exhaustionExuberance leads to exhaustion
Exuberance leads to exhaustion
Exuberance leads to exhaustion
Exuberance leads to exhaustion
Exuberance leads to exhaustion
Exuberance leads to exhaustion
