Stay right here beside me (beside me)[verse one - Kim]

Remember when

We had the same ol' argument

You left angry

Straight out the door

It's not exactly what I had instore, boy

Come back to me[chorus - JS (Kim)]

Baby don't take your love away

Stay right here beside me (side me, side me)(Baby don't you take)

Baby don't take your love away (away)

Stay right here (right here) beside me

(beside me, beside me)[verse two - Kandy]

Only god knows what its gonna take

To make you stay (to make you stay boy)

Right here (oh don't leave boy) here

But I just gotta let you know

That life without you is so cold

So baby won't you come back home[chorus - JS (Kandy)]

Stay right here beside me (whoo!)(why won't you stay with me)
