

Miles Away

Yeah Yeah Yeahs

As the cars go by under the sun like an enemy
You wonder, you wonder, you wonder
As a spider comes and looks at you like an enemy
You wonder, you wonder, you wonder
Well miles, miles away
She's hurt few people in a better world
Miles, miles away
Dressed again in the hot water
Well you're more beautiful than ever
Looking in the car's rear view mirror
The floor is hard uncomforted by the second time
She wondered, she hungers, she hungers like a killers wife
Oh as the cars go by, as the cars go by
As the cars go by, yeah as the cars go by
Miles, miles away
She's hurt few people in a better world
Miles, miles away
Dressed again in the hot water
Well you're more beautiful than ever
Looking in the car's rear view mirror
Well you're more beautiful than ever
Miles, miles, miles, miles away
Miles, miles away
