

Clean

Helmet

Spread you mind the fish feed
But don't ignore my speech, my heart bleeds
Make yourself the perfect butt
Some passing thought, I don't know what But don't remind me, I'll fake what I need Get back in case the door
swings
Don't forget to hide your mood rings
Fit to tie I thought I knew
Good company I'd like to be you You're right behind me, mouth all I read But don't remind me, I'll fake what I
need You're right behind me, mouth all I read
