

# If We Had Your Eyes

Michelle Williams

Can you spare some change  
Is what I heard him say  
At the light  
So I dug thru my ashtray  
My good deed today  
Changed my life  
I thought I knew it all  
Quick to right him off  
Looked like he was lost  
Until I heard him speak now  
I've heard that voice before  
Knew that it was yours  
He said you loved me more  
than I even believed

People judge from what they see  
But lord you see the heart

If we had your eyes  
Then we'd see things right  
If we could just see  
From your point of view  
Then most things won't be as they seem  
If we had your eyes

I had the perfect day  
Is what she says to me  
All the time  
She's so beautiful  
Nothings ever wrong  
In her life  
Yeah that's what I thought  
Until I saw the scars  
She cut in her arms  
That she was hiding from me  
She never said a word  
And all I said to her  
Is that you love her more than

She could ever believed

People judge from what they see  
But lord you see the heart

If we had your eyes  
Then we'd see things right  
If we could just see  
From your point of view  
Then most things won't be as they seem  
If we had your eyes  
If we had your eyes

Show me  
Teach me  
How to see clearly  
Live in the spirit and truth  
We'd be able to show to love  
The way that you love us  
If we could see like you  
If we had your eyes  
If we had your eyes

If we had your eyes  
Then we'd see things right  
See right  
If we could just see  
From your point of view  
Then most things won't be as they seem  
If we had your eyes  
Then we'd see things right

God, if I had your eyes  
I could love better  
Have more compassion  
And I would understand what I'm going through  
While I'm going through I'd be more patient  
God, help me to see things the way you  
The way you see things  
Did I already say help me to be patient  
I'll say that again, wow  
Give us your eyes, God
