Think About You

[Ringo Starr](#)

When I'm walking down the street
And I feel it starts to rain
I don't duck for cover, I look up again
And it's blue, I just have to think about youWhen the road is getting rocky
Or the sea is getting rough
No matter what the trouble
It isn't very tough to get through
Through, I just have to think about youLike a ray of sunshine
Breaking through the stormy weather
Every time my heart beats
I remember that you're mine and I'm fineWhen the world feels fast
And my life feels slow
When I'm feeling way down
Certainly I know what to do
I just have to think about youLike a ray of sunshine
Breaking through the stormy weather
(Breaking through)
Every time my heart beats
I remember that you're mine
And I'm fine
(So fine)I believe in magic
And I do believe in love
So if I want to cast a spell
Here's a little trick I do
I just have to think about youGet me through
I just have to think about youSo I do
I'm always gonna think about youI think about you
Always gonna think about you
