

Hear My Baby Call

Cold War Kids

There's a power in your voice or resistance
Send a telepathic thought like a lightning rod
In the distant blue smiling like you do
I will not disappear

When I hear my baby call
When I hear my baby call
When I hear my baby call
No matter what
No matter what

There's an easy way to test you suspicion
Do you only hang around if there's a dollar in it?
Mr. Generous laid out with mistrust
They will not sleep away

When I hear my baby call
When I hear my baby call
When I hear my baby call
No matter what
No matter what
No matter what
No matter what

More than evil, more than shame the emotion
that we long to understand in your fine happiness
Can you hold on to it if it meant you'd lose
Control of everything else

When I hear my baby call
When I hear my baby call
When I hear my baby call
No matter what
No matter what
No matter what
No matter what

When I hear my baby call
Reach out to me

Reach out to me

When I hear my baby call

Reach out to me

Reach out to me

When I hear my baby call

No matter what

No matter what

No matter what

No matter what

Reach out to me
