

# High School Hero

## Jake Holmes

A highschool hero is no more  
He's working at the grocery store  
He's there lying .... he was before  
But I don't fel behind.

Still glue down to one small SPA  
Guess he's still a 'spend' a lot  
He remembers i forgot I don't fell behind

He's the first who finished classes  
Spends the present in the past.

The little girl he used to date  
Married him six months to late  
Now they gain a lot of weight  
but I don't fell behind

All his bridges have been cross  
what he gain I think he lost  
but his car is newly exhausted  
and I don't fell bihind

The one most likly to succede  
He's finally gonna seed

There'll to be old .. mother  
still " cycle gears  
But the zippers are all rusty  
He can ... a quarter of bear
