

Wrong Side Of Town

Never Shout Never

The wrong side of town You're telling me you're just a small town girl
Sweet shut down 44 'bout 3 hours what's the fear
You're here for the night and you're feeling alright
But you seem like the type to leave when you're falling in love Spend the night with me, I'll take you away from
unnecessary pain
You face every day from the modern push and pull
It tugs you around so please spend the night with me
I'll show you around the wrong side of town. You're telling me you are a good girl
I really ain't one to judge
But you seem like the type to love 'em and leave 'em for dust
You're telling me you are an actress
Honey you ain't fooling me, you'll talk your big talks
Stare me dead in the eye as you lie through your teeth Spend the night with me, I'll take you away from
unnecessary pain
You face every day from the modern push and pull
It tugs you around so please spend the night with me
I'll show you around the wrong side of town. La la la la la la
La la la la la la
La la la la la la Spend the night with me, I'll take you away from unnecessary pain
You face every day from the modern push and pull
It tugs you around so please spend the night with me
I'll show you around The wrong side of town
Will get you high
On the wrong side of town
You won't say goodbye on The wrong side of town
Will get you high
On the wrong side of town
You won't say goodbye on The wrong side of town
Will get you high
On the wrong side of town
You won't say goodbye on The wrong side of town
Will get you high
On the wrong side of town
You won't say goodbye.
