

You're Not Funny You Stupid Clown

audiostrobelight

We've been around for a long time
Thinking about this day
When all the words we have to say
Will start to matter
(Well they'll start to matter now)
I've gotten off my high horse and never felt so good
To be alive from all those crazy times that
Made me who I am and who you were Give me the chance, give me the time
Give me the chance to make this mine
It's in my veins, this is the time
Give me the chance Let's go, let me see you put 'em out
Right now, tonight we're gonna have some fun
Just know, we're taking every chance until our time has come
Let's go, let me see you put 'em out
Right now, tonight we're gonna have some fun
Just know, we're taking every chance until our time has come Well this ain't our first rodeo
And we've seen you come and go
Like the change of winds and tides
And fashion victims, wait in line
We ain't on top, but we ain't bottom
Battle scars, damn right we've got 'em
Fighting the good fight on four wheels
Do you even know how good this feels Give me the chance, give me the time
Give me the chance to make this mine
It's in my veins, this is the time
Give me the chance Let's go, let me see you put 'em out
Right now, tonight we're gonna have some fun
Just know, we're taking every chance until our time has come
Let's go, let me see you put 'em out
Right now, tonight we're gonna have some fun
Just know, we're taking every chance until our time has come We're gonna reach for the stars
We're gonna look past mountains
We'll hold you where you are
And you'll never forget the weekends Let's go, let me see you put 'em out
Right now, tonight we're gonna have some fun
Just know, we're taking every chance until our time has come
Let's go, let me see you put 'em out
Right now, tonight we're gonna have some fun
Just know, we're taking every chance until our time has come
